PROJECTS

Random Password Generator | HTML | CSS | JavaScript

- Developed a responsive web- based password generator using HTML, CSS and JavaScript.
- Implemented customizable password generation with options for length, uppercase/lowercase letters, numbers and symbols.
- Used JavaScript DOM manipulation and event handling to provide real-time password generation and user interaction.
- Deployed the application on GitHub pages for live access and demonstration.

Link : <https://priya9-dev.github.io/Generate-Random-Password/>
